

ThermaMitts™

Thank you for purchasing your PowaKaddy product. Please follow all instructions for safe use and to get the best out of your new PowaKaddy ThermaMitts™.

Important

The ThermaMitts™ are only compatible with PowaKaddy electric golf trolleys fitted with USB-C charging ports on the underside of the handle.

If your trolley does not have a USB-C port, you **MUST** use the PowaKaddy PowaPack™.

USB-A Trolley Range

Product MUST be used with PowaKaddy PowaPack™

Do NOT Plug the PowaPack™ extension cable directly into trolley.

The ThermaMitts™ have a large current draw not suitable to PowaKaddy USB-A trolley models and will cause damage to the trolley handle if this product is not used as directed.

ThermaMitts™ **MUST** be used with the PowaKaddy PowaPack™. Using an adaptor cable to connect the ThermaMitts™ to the trolley handle directly will invalidate your electric trolley warranty.

Using the PowaPack™:

1. With your PowaKaddy Electric trolley turned off:
2. Insert the trolley handle grips into the ThermaMitts™, one side at a time.
3. Slide the grey bungee loops over the grips to secure.
4. Use Extension cable (provided with the PowaPack™) to connect the ThermaMitts™ to the PowaPack™.

5. When plugged into the PowaPack™, The ThermaMitts™ LED button will cycle through the heat setting colours. Once this has completed, press, and hold the ThermaMitts™ power button to power the ThermaMitts™ on.
6. Press the button to toggle through the High, Medium, and Low heat settings.
7. Place the PowaPack™ in an empty pocket in your golf bag where it will be secure and completely dry.
8. Once you have completed your round, power off the PowaPack™ by double pressing the on/off button located on the right-hand side.
9. Once home, remember to charge the PowaPack™ and then store in a dry place out of direct sunlight.

USB-C Trolley Handle

Product can be plugged directly into the trolley handle.

1. Insert the handle grips into the ThermaMitts™, one side at a time.
2. Slide the grey bungee loops over the grips to secure.
3. Plug the ThermaMitts™ USB-C cable into the trolley charging port.
4. Power on the trolley.
5. The ThermaMitts™ LED button will cycle through the heat setting colours. Once this has completed, press, and hold the ThermaMitts™ power button to power the ThermaMitts™ on.
6. Press the button to toggle through the High, Medium, and Low heat settings.
7. Press and hold the LED button to power the Mitts off.

Note:

- After 2 Hours, the ThermaMitts™ will automatically turn off. Simply press and hold the LED button to turn back on.
- If powering the ThermaMitts™ from the trolley battery, the total range of the trolley will be reduced.

Care

DO NOT WASH - wipe clean only.

Material: 85% Polyester, 15% PU
